

State Mental Health Funding

Source of Funds

The State provides funds for educationally related mental health services. Funding prior to 2020-21 is limited to mental health services that are included within a student's IEP. Funding from 2020-21 and thereafter is open to mental health services to students *with or without* an IEP. This funding is also known as Assembly Bill (AB) 114 funding.

Effective 2023-24, CDE calculates this funding based upon each unit of average daily attendance for the current fiscal year as of the second principal apportionment. Learn more about the source of these funds [here](#).

Funding Allocation

Effective 2023-24, the Member LEA receives the funds directly from CDE through the [Principal Apportionment](#).

For 2022-23 and prior, the Sacramento County SELPA allocates Special Education - Mental Health Service funds using the following categories:

- **Mental Health - ADA.** This is allocated by the Member's AB 602 K-12 ADA for that year.

Accounting

- 2023-24 and Thereafter
 - Suggested Revenue SACS Code: 0100-65460-0-0000-0000-859000
